

100 Years

Girl Scouting builds girls of courage, confidence and character, who make the world a better place.

Working together in all-girl environments encourages girls to feel powerful, emotionally and physically safe, and to experience a sense of belonging.

Girls join Girl Scouts because they want to Have Fun, Sell Cookies, Go On Field Trips to Cool Places, Make New Friends, and Wear the Girl Scout Vest or Sash.

Girl Scouts exists for girls, but it exists because of volunteers!

By giving your time and talent, you can make it possible for girls to build character and skills for success in the real world.

Research shows, the influence one caring adult has on a child will last a lifetime.

Influence

The average life span of girls today will be 100 years. You can take a very long piece of adding machine tape and write out 100 years and tear away as you list the following – this really made a very nice visual impact.

- 6 to 8 years are already gone once they start girl scouts! – tear that part off
- You will most likely not be around for her last 40 years! – tear that part off
- They hopefully will leave your house between 18 and 22 years of age. – tear that part off
- Between 14 to 16 years of age others will take over your influence! - Boys, Technology, Friends, Sports – tear that part off
- You have only about 10 years left to influence your daughter's life!

How do you want to spend that time?

Girl Scouting offers you an opportunity to not only impact your daughter's life but other girls as well.
